

MD. RAJAUL KARIM

Full-Stack Software Developer (ASP.NET Core | React.js | Oracle)

01920451466 | mdrkkiron@gmail.com | Sujatnagar, Mirpur-12, Dhaka

 LinkedIn |  GitHub

PROFILE

Full-Stack Developer with 3+ years of experience building modules for a multi-tenant Hospital ERP system using ASP.NET Core, React.js, and Oracle Database. Specialized in integrating Oracle stored procedures through RESTful APIs and delivering end-to-end, parameter-driven reporting features (server-side PDF and Excel exports). Experienced supporting parallel client deployments on a shared codebase.

EXPERIENCE

Software Developer | Global Mediklaud (BD) Ltd.

2022 - Present

- Developed and integrated ASP.NET Core Web APIs for secure, efficient data exchange between the React front end and Oracle back end.
- Implemented responsive, data-driven React.js interfaces with consistent UX patterns (parameter forms, download/preview report actions) across modules.
- Maintained and extended two parallel client deployments (Global and Aster) on a shared ASP.NET Core/React codebase against separate Oracle schemas, ensuring consistent behavior across both.
- Extended the DCCI client deployment (.NET 8 Clean Architecture, PostgreSQL, React 18), converting client-side reports to server-side QuestPDF exports and building employee login/portal APIs.
- Designed and delivered 50+ server-side PDF report modules for a Hospital ERP, integrating Oracle stored procedures through ASP.NET Core Web APIs and rendering parameter-driven, filterable React UIs.
- Built a reusable Excel export facility (ExcelJS) replicating styled PDF report layouts, including company headers, grouped totals, and merged invoice cells, reducing duplicate effort across report modules.
- Collaborated with the wider development team on code quality, performance optimization, and adherence to established coding standards.

Trainee Software Engineer | Corporate Projukti Limited

2021 - 2022

- Worked across front end, back end, and database layers on ASP.NET Core MVC projects within a small development team.
- Gained hands-on experience with full project lifecycle: requirements, implementation, and basic database design.

SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js
- **Backend:** ASP.NET MVC, ASP.NET Core Web API
- **Database:** SQL Server, Oracle Database (integration via Stored Procedures)
- **Reporting:** Server-side PDF generation, ExcelJS (styled Excel export)
- **Tools & Environment:** Visual Studio, VS Code, Git, Swagger

EDUCATION

Master of Physics | Cumilla Victoria Government College

2013 - 2014

Bachelor of Physics | Cumilla Victoria Government College

2009 - 2013

HSC | Mohammadpur Model School & College

2007 - 2009

PROFESSIONAL QUALIFICATIONS

Enterprise Systems Analysis & Design with C# | IsDB-BISEW Diploma

2021

LANGUAGES

- English | Bangla | Hindi
